Cycling to the Christmas market: free, secure parking at Liebfrauenplatz

Free to use until 31 December // Book via radbox.nrw // Enclosed facility just a few minutes' walk from the Christmas market

Anyone cycling to the Bocholt Christmas market can now park their bike free of charge in the secure cycle park at Liebfrauenplatz. This offer applies to short-term bookings (up to 24 hours) until the end of the year. You can book a space via the radbox.nrw portal.

From 26 November to 22 December, the Bocholt Christmas market welcomes visitors to the town centre. The town of Bocholt wants to make it easier for visitors to travel by bike. That is why it is waiving charges for the lockable cycle parking facility at Liebfrauenplatz until 31 December. The facility is just a few minutes' walk from the market square and the historic town hall. It is therefore ideal for a visit to the Christmas market as well as for shopping in the town centre. The town had already offered a similar service during the Bocholt funfair.

The facility at Liebfrauenplatz is fenced off and has an electronic locking system. Only those who have booked a parking space can gain access. Bicycles, pedelecs and e-bikes are significantly better protected against theft and damage there than at freely accessible bike racks. This is a particular advantage during the darker months of the year and for high-value bikes.

Bookings are made via the state-wide portal radbox.nrw, either at www.radbox.nrw or via the app of the same name for iOS and Android devices. You register once, set up a payment method and then select the location and parking duration. Access details are available immediately after booking; no key is required. Until the end of the year, booking at Liebfrauenplatz is free of charge. The facility is operated by the social enterprise Büngern-Technik.

Secure parking facilities are also available in Bocholt at the railway station, the Bustreff and Berliner Platz. The standard rates continue to apply there. Further information and answers to frequently asked questions can be found at www.bocholt.de/radboxen.
