

Replacement badge issue

Fee stickers for the bins

The waste disposal and service company (ESB) reminds you that **the current fee stickers must be affixed to all organic and residual waste bins from 2023.**

Current fee stickers were sent out with the 2023 property tax notice. These stickers are used to check the calculated stock of residual and organic waste containers.

ESB employees will gradually check on site whether stickers are affixed to the bins. The stickers should therefore be on the lid of the bin.

What to do if the sticker is lost?

If you have lost your sticker, or if it has become detached or is missing, you can request a replacement using the online form. After checking, we will send you the requested stickers

or contact you for clarification.
