

Mobility and safety

Goals

- The aim of the working group is to support older people in being and remaining mobile.
- Supporting the senior citizens' advisory board in the information policy on barrier-free and safe routes and buildings, accessibility, and public transport, as well as in counselling and training on safety and order.
- The aim is also to increase the sense of security of older people. There are many offers: Counselling and courses provide tips and knowledge on how older people can move safely in traffic and how they should behave in case of fraud attempts.
- The Seniors' Advisory Council offers its own events on these topics and tries to create transparency about other offers.
- Networking

Information

- [Safe driving in old age lecture by Dr. Tina Gehlert \(09.2023\)](#).
- [Current traffic topics from Bocholt \(05.2023\)](#).
- [Advisory council for senior citizens recommends training for pedelec riders \(11.2022\)](#).
- [Mobile in old age - senior citizens' advisory council discusses with SadtBus GmbH \(06.2022\)](#).
