Scan the QR code and subscribe to the WhatsApp channel of the city of Bocholt!

From now on, citizens can also receive the latest news, event tips and articles from Bocholt.de via the messenger app WhatsApp. [The City of Bocholt channel](#) is now available there. In future, selected news and information from Bocholt will be published there.

In addition to its presence on the social networks [Facebook](#) and [Instagram](#) as well as the [newsletter service via www.presse-service.de](#), the city of Bocholt is thus providing another channel for interesting information about the city of Bocholt and the Bocholt city administration.

New messages via push notification

The notification icon in the channel view

New messages are posted on the City of Bocholt's WhatsApp channel **a maximum of two to three times a day** - depending on which exciting topics, images or videos are currently available.

If you want to be informed directly about current messages, you can activate the notification function in the channel view on your mobile phone via the notification symbol (small bell). You will then be notified of new messages in the channel via a push notification.

The notifications can also be deactivated at this point.

Frequently asked questions
