Municipal Integration Management (KIM) in Borken County - Case Management

This service is aimed at people who come from other countries and have a good prospect of staying in Germany permanently.

It does not matter how old you are or how long you have already been living in Germany.

The case managers will help you individually and in a confidential conversation. They advise you on integration issues. Together we look at what you need and make a plan to achieve your goals. We help you to find contacts to the right places and to benefit from the offers in the Borken district.

Participation is voluntary and free of charge. Your cooperation is very important.

Your advantages:

- **Individual advice:** We talk to you about your problems and keep an eye on everything to help you.
- **Set goals:** Together we set goals and work towards achieving them.
- **Find suitable offers:** We are looking for the right offers to help you achieve your goals.
- **Networking with important positions:** We put you in touch with the right organisations and people.
- **'Help for self-help':** We support you in finding solutions independently and improving your skills.
