

Winter magic in the city centre

When the days get shorter and the city centre is filled with twinkling lights, the cosiest time of the year begins in Bocholt: **the Bocholt Christmas market** invites you to stroll, enjoy and linger.

Around the **market square with the historic town hall**, along the city centre streets and on Neutorplatz, an atmospheric Christmas world is created during the Advent season. Lovingly decorated wooden huts, sparkling illuminated animals and the scent of **mulled wine, roasted almonds and winter specialities** create a real sense of anticipation for Christmas.

The meeting place during the Advent season

Whether for a cosy stroll, meeting up with friends or getting in the mood for the most wonderful time of the year - the **Bocholt Christmas market** is the perfect place to enjoy Advent.
