

Citizen participation

© Stadt Bocholt

Here you will find a wide range of participation procedures on various topics in our city. In addition to a general [idea and deficiency reporter](#), so-called informal participation procedures and surveys, participation in [urban land use plan procedures](#) and other formal procedures are also integrated on this page.

For this purpose, the city of Bocholt uses the [participation portal.NRW](#), which provides municipalities with an individual platform.

Join in, get involved!
