Charly Gitanos and his quartet present an intimate yet high-energy version of "Flamenco Reborn". In this formation, the show focuses on the pure power of Spanish guitars and the percussive passion that defines modern flamenco.

The line-up consists of four exceptional artists who bridge the gap between tradition and contemporary sound. Two guitars interweave with the precise rhythms of the percussion to create a tapestry of sound that goes far beyond a classic acoustic set. It is a compact, powerful sound that perfectly captures the essence of Charly Gitanos' musical vision.

A central element is the dancer, who not only captivates with her visual presence and virtuoso zapateado, but as a permanent band member also reinforces the dynamics of the group with vocals and additional percussion. The interaction between dance and music becomes a direct, tangible dialogue.

The quartet's repertoire ranges from technically demanding original compositions to the great Spanish classics. In this format, Charly Gitanos offers an authentic and up-close experience that brings the elegance and unbridled joie de vivre of Andalusia to every stage.

Charly Gitanos & Band (Quartet)

4 musicians on stage: vocals/lead guitar + 2nd guitar + percussion + 1 dancer (vocals).
