

How does one actually become an adoptive or foster family?

To provide children with a new home and enable them to share family experiences

For various reasons, many children are unable to live with their parents. For this reason, there is an ongoing need for adoptive and foster families who can offer children a safe home with a stable environment. An information evening on this topic will take place on Wednesday 7 October, starting at 7.00 pm.

At SkF Bocholt, at Langenbergstraße 18, a specialist from SkF Bocholt's foster care service will provide information on alternative ways of starting or expanding a family.

The information evening is aimed at all individuals and couples who are considering giving a child a new home or would like to know more about the process of taking in an adopted or foster child.

Please register in advance.

Personal consultations available

In addition to the regular information evenings, there is always the option to arrange personal appointments and receive information through one-to-one consultations with the specialist advisory service at SkF Bocholt. Interested parties are asked to contact the Adoption Agency/Foster Care Service.
