

LECTURE - Heating in transition: heat pump, gas heating or ...? The right decision made easy

This presentation will focus on the topic of heating (replacement)

© KHK Borken

Choosing the right heating system is becoming increasingly complex. Ralf Sparwel explains the differences, opportunities and challenges of various heating solutions - with a particular focus on heat pumps. Participants will receive concrete assistance in making a sustainable and economical decision.

The lecture event lasts around two hours and starts at 6 pm.

It is a joint event organised by Klimakreis Borken, Kreishandwerkerschaft Borken and the towns of Bocholt, Rhede and Isselburg.

Registration at: <https://beteiligung.nrw.de/k/1024543>
