Experience an evening of electronic contrasts at the Alte Molkerei Bocholt cultural venue. Three artists on the synthesisers will showcase the full spectrum of electronic sound art - from deep, ethereal sounds to driving beats - in a venue where sound and industrial architecture become one:

O.S.CILLATOR (Oliver Schupp): Using analogue machines, he transforms the stage into an energetic club circuit of uncompromising EBM, cold wave and house.

Ede - Beyond the Spaces: His live set combines atmospheric deep dub tech with avant-garde experiments, in which synths, electric guitar and electric wind instruments merge with hypnotic grooves and space rock textures. As well as new material, Edgar Ede Hellwig brings his tracks released in the 80s to the stage in a completely new, contemporary guise and with fresh arrangements.

Steve Baltes: Known for his work with the Krautrock legends Ashra, he transports you to vast, cinematic ambient and cinematic soundscapes using analogue sequencers.
