

Tidemore (Indie-Acoustic)

LIVE & CLOSE TO THE SKIN

Free entry

It's a journey that begins every time you listen to the music of TIDEMORE. And you don't know exactly where it will take you...

The perfectly matched brothers Matthias and Andreas Pietsch are currently on the road with their fourth album "TRANSITIONS". Like a soundtrack, it fits the times that are turning and changing you. The two simply know how to write catchy songs. And with their usual candour, they make them shine with their acoustic sound. They impress with their ability to create a moving atmosphere and touch their audience deep inside. They cater for the big emotions and yet are never trivial.
