

# Automotive mechatronics technician for commercial vehicles

The waste disposal and service company is still looking for support for the 2025 recruitment year. [↗](#)

## – What do we offer you?

- A 3.5-year training programme with an optimal combination of theory and practice
- Varied and challenging tasks in the fields of mechanics and electronics
- Working with modern technology
- A collegial and appreciative training environment with dedicated training supervisors
- An attractive training allowance
- A holiday entitlement of 30 days  
(+ additional public holidays and customary days)

## – This is what you should bring with you:

- At least a secondary school leaving certificate
- Enjoy working with motor vehicles
- Manual dexterity
- Ability to work in a team
- Curiosity and willingness to perform
- Diligence and reliability

## – What is the content of the training?

The three and a half year training programme takes place at the waste disposal and service company (ESB) of the city of Bocholt, whereby the theoretical knowledge is supported by attendance at the Bocholt-West vocational college [↗](#).

### **The 1st and 2nd year of training include**

- Measuring and testing various systems,
- operating vehicles and systems,
- assembly, disassembly and repair of motor vehicles, components, assemblies and systems and
- the inspection of motor vehicles in accordance with road traffic regulations

## The 3rd and 4th years of training include

- the maintenance of power transmission systems,
- retrofitting and commissioning additional systems,
- testing and repairing electro-pneumatic and electro-hydraulic systems and
- carrying out service and repair work for a statutory inspection

You can find more information about the apprenticeship [here](#). 

## Where can you work after the training?

After completing vocational training, motor vehicle mechatronics technicians find employment opportunities

- in motor vehicle service companies such as repair shops of the motor vehicle trade and repair shops of vehicle manufacturers,
- at breakdown services,
- in car dealerships and
- at spare parts dealers with affiliated workshops
