

# Environmental technologist for pipeline networks & industrial plants

Applications to [bewerbung\(at\)esb.bocholt\(dot\)de](mailto:bewerbung(at)esb.bocholt(dot)de)

## – What we offer you

The environmental technologist for pipe networks and industrial plants (formerly: specialist for pipe, sewer and industrial services) is one of the new environmental engineering professions. The specialist's tasks include cleaning, inspecting, monitoring and maintaining the sewer network and special structures.

### What do we offer you?

- A three-and-a-half-year training programme with an optimal combination of theory and practice
- Challenging tasks and working with modern technology
- Working in a committed and open team
- An attractive salary.
- The prerequisite for a wide range of employment and further training opportunities

## – What you should bring with you

- A secondary school leaving certificate
- An interest in mathematics, chemistry and physics
- Technical and environmental understanding
- Craftsmanship
- Ability to work in a team
- Willingness to learn and perform

## – The content of the training is as follows

The three-year apprenticeship takes place at the Entsorgungs- und Servicebetrieb (ESB) of the city of Bocholt, with the vocational school training taking place at the [Hans-Schwier-Berufskolleg](#) in Gelsenkirchen.

### The first 15 months cover:

- business management processes, work organisation,

- information, documentation, quality assurance measures,
- environmental protection technology,
- mechanical and process engineering, measurement, control and regulation technology,
- materials processing and
- storage, tools and equipment

#### The last 15 months include:

- Work preparation,
- respiratory, fire and explosion protection,
- safety engineering and environmental protection, and
- Cleaning and waste disposal

## Here you can work after the training

Trained pipe, sewer and industrial service specialists can work in the public, private and industrial sectors.
