

Road builder

Applications to [bewerbung\(at\)esb.bocholt\(dot\)de](mailto:bewerbung(at)esb.bocholt(dot)de)

– What we offer you

- A three-year apprenticeship with an optimal combination of theory and practice
- Inter-company instruction at the [training construction yard in Münster](#) ↗
- Varied and responsible tasks in the field of civil engineering and road construction in the greater Bocholt area
- An [attractive income](#)
- Working in a committed and open team

The occupation of "road builder" is particularly suitable for people who like to design and work outdoors. Road builder is a recognised training occupation according to the Vocational Training Act and the Crafts Code, which is assigned to the occupational field of construction technology.

– What you should bring with you

- A secondary school leaving certificate
- Manual dexterity
- Enjoy working outdoors and with machines
- Ability to work in a team
- Willingness to learn and perform
- Ability to work under pressure

– The content of the training is as follows

The three-year training takes place at the waste disposal and service company (ESB) of the city of Bocholt, with the vocational school training taking place at the Wilhelm-Emmanuel-von-Ketteler vocational school in Münster.

The 1st year of training includes:

- the construction of excavation pits and road trenches,
- the installation and connection of supply and disposal systems,
- erecting, securing and clearing construction sites,

- reading and applying drawings and making sketches, and
- producing structural components from concrete and reinforced concrete.

The 2nd year of training includes

- the construction of road surfaces, seepage systems and drainage channels,
- Laying, installing and testing pipes,
- laying drainage channels and
- what has to be observed when excavating earth and when shoring and reinforcing trenches.

The 3rd year of training includes

- the production and installation of prefabricated parts for road construction and civil engineering,
- Sealing pipe connections and installing drainage pipes,
- carrying out paving work and
- the construction of road surfaces

— Here you can work after the training

After completing vocational training, there is a diverse range of professional employment opportunities:

- in road, runway and sports facility construction,
- shaft construction and
- civil engineering for pipelines and cables
