

Emergency Paramedic

The application deadline for the 2024 recruitment year has already passed.

– What we offer you

- A high-quality, three-year training programme with an optimal combination of theory and practice
- A responsible area of responsibility
- An attractive income
- Work in a committed and open team
- If suitable, further training as a fire chief candidate in the civil service career path in the fire service field

– What you should bring with you

- Secondary school leaving certificate with completed vocational training of at least two years' duration or an intermediate school leaving certificate
- Ability to work under pressure
- Ability to work in a team
- Ability to make decisions
- Flexibility
- Physical fitness(overview of exercises from the sports test)

– This is how the training works

The vocational training consists of theoretical and practical instruction as well as practical training. Theoretical instruction is taught at the [Fire and Rescue Service Academy in Bocholt](#) [↗](#). The practical training is carried out at suitable training rescue stations and hospitals.

The theoretical and practical instruction covers the following topics, among others:

- Recognising, recording and assessing emergency situations in people of all ages and dangerous situations.
- Selecting, implementing and evaluating rescue measures
- Communication with people seeking help and those in need of help
- Life-sustaining measures until the arrival of the emergency doctor

The practical training at the rescue station includes the following tasks:

- Duty at a rescue station
- Carrying out and organising emergency rescue operations.

Practical training in hospitals includes, among others, the following functional areas:

- Nursing department
- Emergency department
- Anaesthesia and surgery departments
- Psychiatric department
