

Information for people with disabilities

No one is excluded in Bocholt. People with disabilities receive support and help in many places in Bocholt and in the region.

Exchange of experience

One way of coping with the particular burdens of a physical or mental illness or disability is to **share experiences** with people who have the same condition.

The [district of Borken](#), in cooperation with the [self-help contact point Kreis Coesfeld / Kreis Borken](#), maintains a database of local self-help groups and self-help organisations at [Selbsthilfenetz.de](#). This helps people to cope better with their illness or disability, as the groups can often offer a wide range of options for solving problems. If you need help, you are sure to find the right contact person here.

Participation in life

Supplementary independent participation counselling (EUTB) supports you with questions about participation. For example, if you have questions about assistance or aids or if you want to know what a participation plan is.

It is offered on a low-threshold basis and independently of service providers and service providers. Local counselling is possible at the [EUTB Kreis Borken - Büro Borken](#) ↗.

Blind and Visually Impaired Association Westphalia e.V., Regional Association Bocholt-Borken

Blinden- und Sehbehindertenverein Westfalen e.V.

The initial application for the determination of a severe disability and the applications for an increase in the degree of disability can be submitted to the [citizens' office of the city of Bocholt](#).

If you need **help with filling out the forms** or with **legal matters**, you can get help from the [VdK social association](#) ↗.

Labour

LWL

Für die Menschen. Für Westfalen-Lippe.

The LWL Inclusion Office promotes the **professional integration of people with severe disabilities** into the general labour market. It creates and secures jobs by advising severely disabled people and their employers.

For example, the Integration Office finances workplaces and training places for employers that are suitable for people with disabilities.
