

City management Bocholt

for a lively city centre

City management supports businesses, owners and visitors in making the city centre attractive, lively and economically strong.

Implementation is based on a marketing concept. Retailers, service providers, restaurateurs, the centre management of Neutorplatz and Shopping Arkaden, urban planning and politics are all involved. City management in Bocholt also takes over the management of the property and location communities (ISG) Altstadt Bocholt e.V.

The concepts developed and the resulting projects, campaigns and events are implemented with the partners mentioned.

Report vacancies & find space

Vacancy management is a key component of city centre management. This primarily involves establishing contact between prospective tenants and property owners in Bocholt's city centre. Potential tenants are actively acquired.

Are you a property owner or looking for a space in the city centre? We support you with our city centre exposé and the commercial property exchange, in which business premises for rent are displayed.

COMMERCIAL PROPERTY EXCHANGE >
