

Company talk day: "SME-TÜV"-future check for companies

@ envato.com

Today's business world presents companies with numerous challenges. Supporting them in successfully mastering these tasks is a key area of activity for economic development. Through targeted advice, location marketing and the expansion of infrastructure, economic development creates the ideal conditions for business growth and innovation.

The "KMU-TÜV" future check (SME = small and medium-sized enterprises) is organised as a company consultation day in order to get to know the current situation of the companies better, to look for solutions together and to provide valuable impulses and practical suggestions for company development.

The [Bocholt Economic Development Agency](#) and the [WFG of the Borken district](#)  jointly invite companies to attend. Individual topics are discussed in 60-minute one-to-one meetings and specific assistance is provided. The aim is to enter into dialogue with the entrepreneurs in order to be able to place new ideas and topics so that the company can be set up for the future.

Impulse talks on the following key topics are possible:

- Corporate development
- digitalisation
- internationalisation
- sustainability
- innovation
- Company succession / Start-up
- Subsidies
- Securing skilled labour

The company consultation day takes place twice a year from 8 a.m. to 1 p.m. at our office on Osterstraße in Bocholt - as soon as the dates for 2026 have been finalised, they will be published here. Once we have received your registration, we will contact you to arrange a specific date for the day.

Participation is free of charge, please register using the following link:
