

Digital Hub münsterLAND

© Wirtschaftsförderung Bocholt

Together with companies, institutions and the university in Bocholt, the Digital Hub Satellite was established in Bocholt. The Hub Satellite was organised by an entrepreneurial consortium, which is also involved in the financing. The aim is to promote an exchange on digital business models.

The Digital Hub münsterLAND promotes digital innovations and their implementation through targeted matchmaking between established companies and start-ups, innovation formats and support for incubation activities.

With its Startup Fellowship and Accelerator Programme, the Digital Hub supports startups and intrapreneurs with growth potential in networking with universities, established companies and investors.

The Digital Hub is an event and exchange platform for the region's tech and maker scene with the aim of incorporating this expertise into commercial projects. Coworking and maker spaces - [Etage3 Bocholt](#) and [Makerspace Bocholt](#) - are available for this purpose.

Digitale Wirtschaft NRW (#DWNRW) is an initiative of the Ministry of Economic Affairs, Innovation, Digitalisation and Energy of the state of North Rhine-Westphalia. The Digital Hub münsterLAND is a project of the münsterLAND.digital e.V. association.

Here you will find further information and offers of the Hub Satellite Bocholt:
