You are logged in at "Profile". Not for "Login".

To change your data, it is important that you are logged in to **bocholt.de with your user account**, otherwise it will not be possible to change your data.

You can see whether you are logged in - in the desktop view (on PC or Mac) at the top right, in the mobile/laptop/tablet view in the menu at the bottom. If it says "**Profile**", you are logged in.

If you are not logged in, it will say "**Login**".

Important note: Depending on the browser, the "Login" button may still be displayed despite a successful login. In this case, try to refresh the page by pressing F5 on the keyboard.

Step 2) Change data in the user account

The **data** of the main applicant, i.e. the creator of the user account on bocholt.de, **must be changed in the user account itself**.

This includes data such as e-mail address, name, address, etc..

Important: The data change in the bocholt.de user account must then be confirmed again using the form for the change in the list of interested parties.

Step 3) Call up the "Residential plots" page

Changes such as marital status, partner, children or living arrangements must be made using the form itself. To make these changes or to **confirm the changes to your bocholt.de user account**, go to the page for residential properties. You will find the page at the address www.bocholt.de/wohnbaugrundstuecke
