On Tuesday, 5 March, the puppet show "Luna's Dream Journey" will take place at the Alte Molkerei (Werther Straße 16). Children from the age of four can look forward to a fascinating, encouraging play with lots of humour, fears and self-assertion, which takes the tiresome issue of going to bed as its theme. The puppet show starts at 3.00 pm and is performed by the Blaues Haus theatre from Krefeld.

Going to bed at night is an issue that all parents and children are certainly familiar with. Luna is also familiar with this problem, the same every night: Luna doesn't want to go to sleep: "Another story!". But this evening, the story from her mum takes her straight into the world of dreams.

Here Luna can fly, grow huge, experience exciting adventures on the high seas and see fascinating water creatures. She discovers a very special treasure: her dreams. But this treasure is stolen from her and she has to face her fears in order to get her treasure back.
