The City of Bocholt, the Verein für Heimatpflege e.V. and the team of the City Museum invite all interested citizens to participate in the kick-off event for the definition of guidelines for the new Bocholt City Museum.

From 13 June to 20 August 2023, interested citizens can sustainably anchor their ideas and wishes in the future museum concept as part of a participation measure lasting several weeks.

"The mission statement with its guidelines is indispensable for the creation of a modern and up-to-date museum concept. It describes the future self-image of the museum, makes priorities clear and provides an orientation framework for all the further considerations and planning in the course of the modernisation of the City Museum," explains museum director Lisa Resing. "I am therefore very pleased that public participation offers us an opportunity to be able to take people's ideas and wishes into account from the very beginning of the process that is now starting," she continues.
