

Cycling race day in the I-Park Bocholt

3rd round of the NRW ROSE Bikes Road Bike Cup

A breath of fresh air has been blowing through the Bocholt cycling world since 2023. With many good and successful memories, the RC77 says goodbye to the traditional race "Rund um den Gaskessel" and now organises a new road race in Bocholt's I-Park.

The reasons are simply of a practical nature: We have a very good infrastructure at the I-Park in terms of organisation. Track safety, parking spaces for riders and spectators and yet a challenging course for good racing - the new venue combines all of this.

Our partner [ROSE Bikes](#) will provide us with a large area in front of the office building at the Raiffeisenring, which we will use for the number distribution, award ceremony and refreshment stands. We are also delighted to be part of the "ROSE-NRW-Rennrad-CUP" this year. The riders will collect points in 10 races throughout NRW, after which the cup will be awarded at the end of the series.
