

"Climate change does not stop at the border" at Diepenbrock Castle in Bocholt - Barlo

© Internationales Netzwerkbüro

On 21 September, the summer networking event will take place, which is fully dedicated to the topic of climate change and climate impact adaptation.

Moderated by **Monique van Schijndel** (known from Radio NRW and Welle Niederrhein), we have put together a varied programme for you. Look forward to two inspiring keynotes presented by two renowned speakers of the evening: **Claudia Kleinert** (weather presenter) and **Reinier van den Berg** (RTL4 Weerman). Claudia Kleinert is a German television presenter and meteorologist known for her work as a weather expert. Reinier van den Berg is a Dutch meteorologist and climate expert who works to raise awareness about climate change. They will share their extensive knowledge and experience to offer you valuable insights into current developments and approaches to climate change.

Registration for the "Summer Networking Event" for businesses is now open on the website <https://internationales-netzwerkbuero.de/sommerevent>.
