TheCaptain, four Dutch musicians who make exciting, idiosyncratic music with blues roots. blues roots. So far they have made six albums, all of which have been very well received. received very well. Already the first record, He's Back, was very well received: the band and singer Henk Waninge would be compared to Tom Waits, Neil Young, Robert Johnson, J.J. Cale and Captain Beefheart (the group's main inspiration). After that, the following would be released: Fade Away, The Captain Goes Euro, Flanders Fields, Let the bon times rouler and Meet The Monster (2017) A new album will be released in early 2023.

The band plays almost exclusively original compositions, mostly in English, but sometimes in German. but sometimes also in German. The lyrics are mysterious, the vocals eerie and the music energetic, rootsy and swampy.

energetic, rootsy and swampy.

The performances are stormy and driven. The band never fails to impress.

The musicians:

Henk Waninge - vocals & guitar

Corine Nieuwenhuijzen - guitar & vocals

Edmond Valentijn - drums & vocals

Willem Molenaar - bass guitar & samples

They don't just play the blues: they have it!

The band has recorded an album with eleven tracks of the very highest quality.

The Captain (Henk Waninge) is truly uncanny with his raw voice.
