

Current funding programmes

Support for sustainable projects

We would like to support you in the implementation of your climate and environmental protection projects. For this reason, measures for the development and implementation of such projects are repeatedly funded. On this page you will find an overview of active funding programmes and information on whether and how you can apply for funding.

Funding navi from the federal and state governments

Many measures for energy saving or the application of renewable energy are funded by the state of North Rhine-Westphalia or the federal government. The [NRW.Energy4Climate Förder.Navi](#) provides information on permanently offered funding programmes for broad-based technologies.
