

Action: Kulturrucksack

The perfect companion for your cultural adventure!

Discover the creative side of your city: go on a cultural adventure with the Kulturrucksack!

North Rhine-Westphalia has a particularly rich cultural landscape. This includes outstanding municipal but also independent theatres and many museums that invite people to engage with art and history, as well as concert halls, choirs, dance companies, literature houses, cultural festivals, youth centres and socio-cultural centres.

All these competences are to be used to make North Rhine-Westphalia, together with the municipalities, a *land of culture for children and young people*. To this end, there should be many exciting age-appropriate cultural offers that are not only accessible to all children and young people, but **also affordable**. (Source: kulturrucksack.nrw.de)

TO THE REGISTRATION

New start: the Kulturrucksack 2024

The cultural rucksack for 2024 has been put together.

It's packed and ready: The Kulturrucksack for 2024. 23 projects from the fields of art, literature, film, drama, photography and music make up the programme for this year's Kulturrucksack campaign.

The exciting programmes were developed together with familiar and new project partners. The aim was once again to cover as many disciplines as possible, to attract great artists and cultural players, but also to distribute the offers across different locations and districts in Bocholt.
