Historic fairground fun

© Buchholz

The Buchholz caterpillar ride is a real fairground legend: the ride was built in 1926 and will celebrate its 100th anniversary in 2026. Twenty-four carriages do their laps. It's particularly nostalgic: during the ride, the traditional fabric canopy closes - and some of the music still comes from real vinyl records. Lap after lap, the ride hurtles along the track - accompanied by music, speed and plenty of fun for young and old alike.
