

UFO Jet

Where is the ride located?

Location: Market square

Heading

© Stadtmarketing Bocholt

Fitted with 14 self-steering space gliders, the Ufo-Jet (Star Trek) by showman Krenz is the largest carousel of its kind. Children can steer the gondolas independently of one another up to a height of 6 metres. The unique design, featuring science fiction themes from space travel and film, captures children's imaginations and has long since made Star Trek one of the most popular children's rides.

Bocholt funfair in figures

- approx. 500,000 visitors annually
