

The LernWerk

The new centre for culture and education

Bocholt's culture and education has a new home: **the LernWerk in the kubaai neighbourhood.**

The **LernWerk** has emerged from the former Herding spinning mill, the oldest building in kubaai, and will serve as a new home for many cultural and educational organisations.

The **adult education centre, music school, JUNGE UNI** and **cultural administration** are moving into 6,000 m² of floor space. In addition, the Borken district learning centre with its library, the German-foreign societies and the integration council will also find a new home.

The neighbouring building is available to the independent cultural association (KUKUG - Bocholter Kunst- und Kulturgemeinschaft) as a studio, exhibition and event space.

Overview: The LernWerk in figures

- approx. **6,000 m² total area**
- **121 rooms**, including
 - 18 offices
