The International Network Office is a contact point for German and Dutch companies. It was established in 2016 with the aim of supporting entrepreneurs on both sides of the German-Dutch border in developing and professionalising their business activities in the neighbouring country. The project is an initiative of the Bocholt Economic Development Agency and the Dutch municipalities of Oude IJsselstreek, Winterswijk and Aalten. It is aimed at companies from the Achterhoek region and the neighbouring region around Bocholt.

You can find more information on the pages of the [International Network Office](#).
