BOHRIS

Health Professions Fair in Bocholt: Care and Medicine at your fingertips

24 February 2024 at the "LernWerk" // Companies from the care and health sector can still register until 30 September

On Saturday, 24 February 2024, a large trade fair all about health professions will take place in Bocholt. Companies from the region that would like to present themselves at the fair still have until 30 September 2023 to register.

The fair, which is organised jointly by Ärztenetz BOHRIS e.V. and the City of Bocholt, is aimed at pupils in years 8 to 13, people returning to work and people in the orientation phase. "The fair is an excellent opportunity to get to know future applicants and to exchange ideas," says Lisa Knuf from the City of Bocholt.

The event serves as an interface between educational institutions, applicants and the healthcare industry. Companies have the chance to present their job profiles, career opportunities and innovative strength to a larger audience and to present themselves as an attractive employer in the health sector. At the same time, the fair offers visitors a unique insight into the diverse health professions as well as the opportunity to get in touch directly with professionals from the industry.

Companies that would like to register for the Bocholt Health Professions Fair can do so until 30 September. Further information on the fair and registration is available online at www.bocholt.de/gesundheitsberufemesse. 

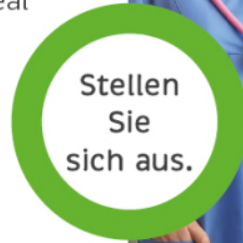

Make a note of the date now
