

20. November 2025

Children and youth

Bocholt 2026 holiday programme available online

Online portal activated // Registration possible from 26.11.2025 // Continuous updating of the programme // Cost coverage for Münsterland Card holders

The city of Bocholt is once again making the 2026 holiday programme available online. From 26 November 2025, parents will be able to register, view offers and book their first places. All reliable holiday games will be available for booking from 15 January 2026 at the latest.

The "Leisure programme Bocholt" will continue to offer families a wide range of leisure and holiday activities for children and young people in 2026. These include holiday games, day trips and events in the fields of culture, theatre and music. The overview on the online portal makes planning easier and enables direct bookings.

Parents can find comprehensive information on each programme, such as dates, costs and conditions of participation. A new registration is required once a year to make a booking. Parents can keep track of their current registrations at all times via their personal user account.

The programme is constantly being added to and updated, which is why it is worth checking the portal regularly. In the coming year, the city of Bocholt will again cover the costs for the reliable holiday play offers during the summer holidays for holders of the Münsterland Card. More detailed information is available from the respective provider.

Interested families can access the portal at: user-ferienprogramm.de/bocholt
