Kindergarten year 2024/2025: Register your children now

Deadline is 23 November // Register children online now via the Kita portal

Registration interviews for the 2024/2025 kindergarten year are currently taking place at Bocholt's daycare centres. Until 23 November 2023, parents who wish to take up a childcare place for their children from 1 August 2024 have the opportunity to pre-register their child online in one of Bocholt's 40 daycare facilities.

Information and contact addresses for individual childcare centres in Bocholt are available on the daycare portal at www.kitaportal-bocholt.de.

After successful online registration, it is essential to contact the daycare facilities by 23 November 2023 at the latest so that the child can be placed on the waiting list, according to the youth welfare office. Only children on the waiting list can be considered for the allocation of places.

If parents have already made an online reservation, they can view the status under the reservations tab in their user account in the Bocholt daycare centre portal.

In December, the registrations received and capacities will be compared. From January, parents will then be informed by the daycare centres about the allocation of places.

If parents have any questions, they can contact Eva-Maria Storm (02871 953-2374) and Stefanie Niehaves (02871 953-2231) from the Department of Youth, Family, School and Sport.
