Going to bed at night is an issue familiar to all parents and children. Luna is also familiar with this problem, the same every night: Luna doesn't want to go to sleep: "Another story!" But this evening, her mummy's story takes her straight into the world of dreams.

Here Luna can fly, grow huge, experience exciting adventures on the high seas and see fascinating water creatures. She discovers a very special treasure: her dreams. But this treasure is stolen from her and she has to face her fears in order to get her treasure back.

The play is part of the puppet show days organised by the cultural administration of the city of Bocholt. For more information, please contact the Department of Culture and Education on 02871 / 953 2610.
