City marketing

## Maypole erection and flower decorations

© Stadtmarketing

**Bocholt.** As of today, 22.04.2026, the lovingly decorated maypole is once again standing in front of the historic town hall. The ESB employees prepared and decorated it in advance. At the same time, Ewibo GmbH hung white, pink and red geraniums on almost 200 lanterns in the city centre. 200 lanterns in the city centre, providing a colourful splash of colour and a spring-like atmosphere in the city centre. These will brighten up the city centre until the end of September. So once again this year, the motto is: BOCHOLT BLÜHT!
