City marketing

## **Krammarkt on 06 March**

### **Colourful shopping in Bocholt city centre // Popular market takes place again**

On **Wednesday, 6 March**, the first Krammarkt of the year will take place in Bocholt city centre - the goods will be presented in the usual way and at the familiar stalls on Gasthausplatz, St.-Georg-Platz, the market in front of the historic town hall, on Nordstraße, on Neustraße, on Osterstraße and on Neutorplatz. From 9.00 a.m. to 6.30 p.m., all visitors to the city centre are invited to stroll and browse through the pedestrian areas at the Krammarkt.

#### **Varied offer**

The special variety of the wide range of products on offer becomes clear at every Krammarkt in Bocholt, as the traders bring along everyday items that are often not found in this wide range in bricks-and-mortar shops. The colourful mix of textiles of all kinds, arts and crafts, gift items, household goods, cosmetics, cleaning products, polishes, spices and knick-knacks make the Krammarkt in Bocholt city centre so popular. Visitors appreciate the selection and ensure a good frequency and a great atmosphere in Bocholt's city centre on the Krammarkt days - almost comparable to the markets in the south of France, which can be found regularly in all villages and towns there and are special attractions for residents, but also for out-of-town guests.

#### **Culinary refreshment**

If you like, you can fortify yourself at the specially set up snack stands and enjoy the delicious food on offer. A break in one of the cafés or restaurants is also a welcome alternative.

The next Krammarkt will take place on 03 April.
