Learn and experience: Dutch course at the adult education centre

One-week intensive training course with excursion from 22 January // Can be recognised as educational leave

The Bocholt-Rhede-Isselburg Adult Education Centre is offering a one-week "Dutch" language course for people with little or no previous knowledge of Dutch. It is aimed at people who want to learn enough in a short time to be able to communicate in Dutch in everyday situations.

The Dutch language is not only in demand in the border region with the Netherlands - it is also used at work, in private life and in everyday situations. As part of the intensive course, the adult education centre offers a great opportunity to learn Dutch and explore the neighbouring country at the same time. The course starts on Monday, 22 January. Participation costs 172 euros.

In a varied week under the guidance of native speaker Peter Stein, the basics of the Dutch language will be taught and everyday situations practised.

The number of participants is limited to twelve in order to guarantee intensive support. The course is recognised as educational leave for certain professional groups, which means that participants may be granted additional leave for this week.
