VHS Course: Drawing - Rediscovering Creativity

Artist Sabine Günzel reveals tips on what matters // Thursday, March 3, from 7 p.m. in the Media Center

Discovering one's own creativity in drawing - this is what a further education course of the Adult Education Center Bocholt-Rhede-Isselburg now invites you to do. The course will take place on Thursday, March 3, starting at 7 p.m. at the Bocholt Media Center with the participation of artist Sabine Günzel. Participation costs 10 euros. Previous knowledge of drawing is not required.

Sabine Günzel is an artist living in Bocholt and reports from practice: "Anyone who wants to draw can learn it well under guidance. Many people want to look with pride at their own pictures and fail at the technique. There need not be. Anyone can draw if the tools are known. With a little practice, works of art are created that would not have come about without instruction."

The artist has been painting and drawing since childhood. She reveals tricks and techniques to the participants.
