Fire and rescue station

After continuous rain: Fire brigade pumps out water on the construction road

Operation on Wednesday afternoon // Construction road temporarily closed

Bocholt - A large area of water on Bocholter Baustraße in Holtwick is currently being pumped out by the fire brigade. The water had accumulated in an open area after the heavy rainfall of the past few days. The site road in this area had to be temporarily closed for the operation.

"So much water has accumulated in this area that it can't drain away quickly enough on its own," reports Dirk Arping from the Bocholt fire brigade.

The roads in this area will be closed by the city of Bocholt for the duration of the operation.
