Fire brigade

FW Bocholt: Suderwick fire brigade provides support during a major fire in Dinxperlo

FW Bocholt (ots) -

On Monday evening, the Bocholt Fire Brigade, together with the Suderwick fire crew, was called out to assist the Dutch fire service at a major fire in Dinxperlo, in the Helmkamp industrial estate there.

On arrival, a fire was burning at the depot of a recycling company. Alongside several units from the Brandweer, the emergency services from Suderwick assisted with firefighting operations at the scene. Fortunately, the fire brigade was able to prevent the fire from spreading to other parts of the site or to a petrol station directly adjacent to it.

The Suderwick fire brigade was on duty with two vehicles and eleven firefighters until around 1 am.
