Honorary office

New location for the "Helping Hands" furniture warehouse on Industriestraße

Moved to Industriestraße 7 // Opening hours by appointment

The voluntary organisation "Helfende Hände St. Josef Bocholt e. V.", which is involved in providing aid to Ukraine and social support, has moved into a new temporary location for its furniture store. The warehouse is now located in a municipal building at Industriestraße 7.

At the new location, the warehouse is open by prior appointment. Members of the public who wish to support the charity can drop off donations of goods that are in good condition and undamaged. We accept furniture, household goods, clothing and toys. Donations must be delivered by the donor themselves, by prior arrangement. For larger items of furniture, the charity also offers a collection service using a van. Members of the public wishing to collect furniture and household goods may visit the furniture store by prior appointment. They must provide proof that they are receiving social security benefits, usually in the form of the benefits notice issued by the relevant authority.

All information regarding booking appointments, the exact conditions for acceptance and how to get in touch is summarised online at bocholt.de/moebellager.
