Civil engineering works: Passage through Krumme Straße and Wiesengrund temporarily closed

Closures from 26.05. to 23.06.2026 // Civil engineering work on behalf of stadtwerker

Due to upcoming civil engineering works on behalf of stadtwerker GmbH, road users must be prepared for restrictions in two streets in the coming weeks. Both Krumme Straße and Wiesengrund Straße will be closed to motorised traffic in the affected sections. The work will start on 26 May and is expected to last until 23 June.

There will be construction-related traffic obstructions in the Bocholt city area in the near future due to necessary civil engineering work by stadtwerker GmbH. One of the streets affected by these measures is Krumme Straße. In the area of house number 2d, the road will be completely closed to all traffic from 26 May to 23 June 2026. On the other hand, another civil engineering project by stadtwerker will lead to restrictions in Wiesengrund street during the same period. A closure is required here at house number 24. The respective residents will be informed about the exact procedure and existing restrictions.
