Pannemannstraße will be closed due to house connection work

Full closure in the period from 15 May to 12 June 2026

In Pannemannstraße, the section between Lowicker Straße and Werther Straße will be impaired for road traffic from 15 May 2026. Due to work on a house connection, the road is expected to be closed until 12 June.

A corresponding traffic sign plan with diversion recommendations has been drawn up to guide traffic safely around the construction site area. The city of Bocholt asks all citizens and road users for their understanding for the necessary work and the associated temporary inconvenience in the neighbourhood.
