## Repairs to the power line at Gasthausplatz

### Parking remains available // No impact on the weekly market

On Monday 15 June, stadtwerker GmbH will be carrying out work on a power line at Gasthausplatz.

The work is expected to take five working days. The car park will remain open and there will be no restrictions for pedestrians either. The work will not affect the weekly market either. However, it will not be possible to drive around Gasthausplatz whilst the repair work is in progress.
