Road renovation on Heutingsweg: full closure in the coming week

Expected closure from 2 to 6 March 2026 // Renovation of the path at "Ententeich"

From 2 March to probably 6 March, the path on Heutingsweg, which runs from Münsterstraße along Sandbachpark ("Ententeich") to the primary school, will be repaired. Heutingsweg between Weimarer Straße and the junction with Münsterstraße will have to be fully closed to vehicle traffic in order to carry out this work.

While the Heutingsweg is closed to motor vehicles during this time, the paths remain usable for pedestrians. Pedestrians can safely cross the roadworks area on the opposite side of the road. As no explicit diversions will be signposted for vehicle traffic, the city of Bocholt asks all local travellers to avoid the area in the coming week.
