Sport: All grass pitches in Bocholt closed

Due to the current weather conditions, all grass pitches in the city area are currently unplayable and therefore closed today, Friday 24 February 2023.

This was the decision of the municipal sports ground control of the ESB after checking the condition of the pitches on Friday morning. Whether the closure will have to be extended to the weekend will only be decided after another inspection of the pitch conditions on Saturday morning.

The artificial turf and clay pitches are not affected by the closure.

The municipal grass pitches are closed due to the weather, the city of Bocholt informs.
