Fibre-optic works: Restrictions on Adenauerallee

Work from 19 to 31 October 2026 // Western footpath and cycle path closed in sections // 30 km/h speed limit in the construction zone

During the autumn half-term holidays, work will be carried out on Adenauerallee to lay fibre-optic cables. From 19 to 31 October 2026, the western footpath and cycle path will be closed for this purpose. Cyclists will be diverted onto the carriageway in sections.

Whilst fibre-optic cables are being laid, the western footpath and cycle path along Adenauerallee will not be available as usual. Depending on the progress of the works, cycle traffic will be diverted onto the carriageway in sections. For safety reasons, a 30 km/h speed limit applies in the affected areas. Pedestrians can continue to use the space remaining next to the respective construction site.
