Traffic

Section of Birkenallee closed during the holidays for fibre optic expansion

Between Schulstraße and Dannenkamp // Pedestrian and cycle traffic still possible

The fibre optic expansion in Biemenhorst will continue. According to the city of Bocholt, a section of Birkenallee (between the streets "Auf dem Dannenkamp" and "Schulstraße") will have to be closed for the duration of the Easter holidays.

For health and safety reasons, a full closure is unavoidable. However, affected residents will still be able to pass through the area.

The section of Birkenallee will remain closed between Monday, 25 March and Friday, 5 April.
